Another Wolf Drive To Be Staged Soon.

Another wolf drive, probably next week will be staged west of town over the same territory and by the same men as staged the hunt last week. There are wolves in this territory for Jack Holt said that he saw six on his place. When the last hunt was staged it was really too cold for the wolves to come out and not enough men turned out to drive a large territory at one time. For the next drive it is planned for everyone to meet at a specified place, drive what territory they can, then cover another portion. They plan to take their dinner and make an all day hunt of it. FRANCE JUSTIFIED IN RUHR INVASION

SAYS REV. J. A. COOPER LAST NIGHT.

VOLUNTARY BANKRUPTCY

German is Purposely Deflating The Mark, He Declared, France Will Stay.

"Whatsoever a nation soweth, that also shall it reap," was the paraphrased text of the Rev. J. A. Cooper in his Sermon last night on, "The Case of France." He was referring to Germany in the light of the present Ruhr invasion by France. In the beginning of his talk Mr. Cooper went back and recalled some of the earlier actions of Germany in 1914 at the beginning of the war, its ravaging and destruction of Belgium and France, its hedging and trimming its declaration that a treaty or agreement was a mere scrap of paper, and other earlier actions of the government. He then recounted the events, and attitude and action of Germany since the signing of the armistice and declared that France was justified in occupying the Ruhr.

"I cannot prophesy the outcome of the French occupation, neither do I comment upon the wisdom of the move,' he said, "But their can be no doubt about France being justified in her move."

With facts and figures he showed why France was justified. Snce the close of the war, he said, France has spent from eight to ten million dollars in the rehabilitation of her devasted area, borrowing the money from her people, expecting to repay it with German reparation, but had only received 250 million dollars in German payments.

"Germany has not even paid what she agreed to by the treaty of Versailles," he said, "Even after the original reparation amount had been scaled down. France has used every other means of collecting what belongs to her, during the four years since the war ended, and now she is resorting to compulsory means. France is now facing the question, :Did we win or lose the war? 'Did we spend our billions of dollars to the accomplishment of an end or did we waste it?'

It was at this point that he declared that America lost the war because it did not accomplish the purpose for which it entered the conflict. "America went to war," he said, "To bring peace to the world; we didn't bring peace as the situation looks now."

In speaking upon the financial situation of Germany now, Mr. Cooper pointed out its actions in grinding out paper marks puposely, he said, to depreciate the mark and wreck for finances, and she is, "purposely trying to take the bankruptcy law." The rich German barons of the Ruhr are and have been making great profit and are investing their money in tax free foreign securities. French, by the Ruhr invasion, can bring these barons to time, said Cooper.

"France began her rehabilitation upon the strength of the German promise to pay," he said, "And they have paid only a small percent of their agreement. The present French tax is $52 per capita compared to $27 per capita in the United States."

Touching upon the recent French loan of 400 million franc to Poland Cooper said, she would be, "The most colossal of fools to let Poland weaken and perish. If Poland weaken it adds to the possibility of a German-Russian alliance, and France for military reasons, helped Poland viewing the investment the same as buying a battleship or building up their police."

Upon the reparation question he said that all nations should pay their debts that it would be harmful to credit relations to refuse to pay them. "But morally and ethically France shouldn't pay us eleven billion she owes us," he said, "Who fought with ten million of that money before we could get men to France, Was it not as much our war. The money was our contribution before we could send men, and it was spent right here for foods and ammunition. France lost four million men. Are four million men worth ten billion dollars? "He expressed the opinion that we would never collect from France until Germany paid her reparations.

In closing he said that France would stay in Germany as long as it wished. France is jammed up against a nation that hates her, and insists that she has protection from this neighbor and assurance that she will pay. "If war comes France will not be to blame," he said, "The world can blame itself. If there is any peace it is that of international justice. If Germany goes scot free, then international justice is a farce. I cannot forget what France did in 1776, and again in 1914. She saved civilization, we said so ourselves, and now she is trying to get what the enemy agreed to pay. If there is to be any sentimental attachments between nations, it should be between France and America."

DR. FRYER GIVES FLU PRECAUTIONS

COUNTY DOCTOR WARNS OF PREVALENT SICKNESS.

TAKE NO CHANCES NOW

Don't Neglect A Cold and Get Plenty of Fresh Air He Says—Tells Of Symtoms.

There being quite an epidemic of flu, grip and colds in this county, Dr. C. P. Fryer, county health officer, has outlined the following information for the benefit of the people of the county in the diagnosis and treatment for colds and influenza:

Catarrhal Fever—Influenza is an acute, contagious disease, characterized by fever, marked prostration, severe muscular pains and catarrhal inflamation of the respiratory and gastro—intestinal—tract.

Influenza occurs epidemically and endemicallly. Spreads very rapidly and may effect a large number of population simultaneously. Outbreaks occur most frequently in cold weather and usually last about six or eight weeks and then subsides. The disease is transmitted by contact, supposedly from secretion of the nose and throat and also by fomites.

Doubtless carriers play and no age seems exempt. One attack instead of conferring an immunity predisposes to others.

Influenza, itself, does not often kill except by its complications. The latter are mostly associated with the respiratory tract and consist chiefly of pneumonai, abscess of lung and pleurisy.

Incubation Period—Incubation period is usually from two to four days. The attack is ushered in with lassitude, chilliness, severe pains in head and back fever, and marked prostration, infection of the eyes, hoarsness and cough. In uncomplicated cases, the temperature usually falls in three or four days. In some cases the respiratory tract is involved, which may cause pneumonia. In other cases, the gastrintestinal—or the nervous system becomes involved with neuralgic pains in the head and back.

Prevention—Proper clothing and personal hygiene, with plenty of fresh air. Avoid crowds and rooms with poor ventilation. Use handkerchief while coughing or sneezing. Do not neglect a cold, take no chance with influenza.

Ship Subsidy Forces Lose First Skirmish

Washington, Feb. 19—Administration forces in the Senate this afternoon lost their first skirmish in the battle with the insurgent Republicans and Democrats to kill the Harding-Lasky ship subsidy bill.

Ship subsidy supporters were defeated 44 to 42 in their attempt to ward off the motion by the 'farm bloc' Republicans to displace the subsidy measure in favor of the "filled milk" bill. It was the first real test since the bill was brought before the Senate two months ago, and indicates that the combined opposition can prevent its ultimate passage.

FRANCE ASSAILED BY LLOYD GEORGE

CONDEMNS RUHR POLICY IN COMMONS TODAY

FLAYS BRITAIN POLICY

Both Lloyd George and Ex-Premier Asquith Speak on English Attitude

London, Feb. 19 (Bulletin) France's military program in the Rhineland and Ruhr was bitterly assailed by former Premier David Lloyd George in this House of Commons this afternoon in a debate upon the British policy.

London, Feb. 19—A vigorous attack upon Great Britain's Ruhr policy was made in the House of Commons today the Liberals and Laborites making common cause. Both former Premier David Lloyd George and former Premier Asquith gave notice that they would speak before the debate closed.

The debate was based upon the two factions proposing that the royal address which opened the present session, be amended to include mediation of the reparation issue with the United States invited to participate.

It was regarded as likely that the Laborites would vote with the Liberals, but the supporters of Premier Law claim to have a majority of more than a hundred. The government whips were active throughout the morning seeing that all Tory members were in their seats and remained there until adjournment. The government faces 253 hostile votes, but Premier Law and his colleague believe they can storm the weather with plenty of votes to spare.

ONE HURDLE CLEARED.

When the armament limitation conference devised a plan for reducing naval expenditure, it was hoped that a war weary world would jump at the chance to check off some of its burdens. But while three of the signatory powers signed these treaties promptly, it has proved difficut to get them by the other two.

The Italian Chamber of Deputies has now removed one difficulty in the way of these agreements, by ratifying the treaties by a nearly unanimous vote. Now if France will do the same thing, it will promote its friendship with the United States. When the French ask why sentiment has cooled in this country toward their people they have only to look at the long delay in ratifying the naval limitation treaty, as one cause that has alienated some sympathy for their cause.

Some people worry so much they would welcome disaster for a change.

M. Coue should have gone before Congress. It might help Congress to even think it is getting better day by day.

Kirksville will vote on a proposition to bond the city for $260,000 for the construction of a new water plant and $40,000 for a light plant. Kirksville is getting to be real ambitious.

It is said there are twice as many bath tubs in the United States as there are in all the rest of the world. No wonder the American boy thinks his lot is the hardest.

The British debt to the United States is larger than the total of all the gold and silver in the United States in 1922. When it is all paid we can all take a holiday and have a good time.

The shipping bill is again made the "unfinished business" of the United States Senate and, despite the determination of the President to get it passed, there is a strong probability that it will be finished when it comes to a vote.

Team Work in the Standard Oil Company
(Indiana)

"Paying for needless strikes is an item in the cost of living that conceivably might be reduced."

When all is said, strikes are but the symptoms of an industrial disease, which is not eradicated when the strike is settled. If those engaged in the conduct of a business, whether they be employer or employe, will approach a controverted point in a spirit of justice, the differences can be adjusted satisfactorily and the strike made an unnecessary extravagance.

The record of the Standard Oil Company (Indiana) is a record of industrial peace. Employes of the organization always have had ample opportunity for bringing their grievances to the attention of the management, and during the past few years ways have been provided whereby these complaints can be adjusted with promptness and finality. This is called the Department of Industrial Relations.

Its function is to substitute evolution for revolution; to avert discontent; to prevent conditions which give rise to disorder and strikes.

Since inaugurating this Department of Industrial Relations we have had little or no labor troubles and these have been adjusted as soon as the facts could be set forth, and opportunity given to demonstrate the justice of each side to the controversy.

Team work is the fundamental base upon which the Standard Oil Company (Indiana) efficiency is built. To calculate the value of this efficiency in terms of money one has but to figure the cost of disorganization, discomfort, and expense which the people in the Middle Western States have suffered through industrial strife. As petroleum products enter into every phase of life to an extent which appears incredible to the layety, uncertainty or scarcity in the supplying of these products would affect the daily life of the individual definitely, unfavorably, disastrously.

Both the management and the employes of the Standard Oil Company (Indiana) recognize teamwork as a definite necessary part of this organization. The army of employes under sound leadership are working toward the ideal where adjustments will be made automatically, because justice and equity will rule to the profit of the employe, employer, and the public at large.

TO RELIEVE PAIN AND BACKACHE

Women May Depend upon Lydia E. Pinkham's Vegetable Compound

Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I needed to take something to relieve my pains and backache, and to help build me up I began to take that. I had been sick off and on for years and barely weighed a hundred pounds, but now I have had such good results that I am recommending the Vegetable Compound to every one."—Mrs. J. J. BIEBER, 3939 18th Ave. South, Minneapolis, Minn.

Finds a True Friend

"Every woman who values her health should be proud to have a true friend like the Vegetable Compound," says Mrs. W. E. Shaw, 3927 Walnut Street, Chicago, Illinois. "I had female weakness so badly that I could not stand on my feet. Half of my time was spent in bed and I had pains in my back which were unbearable. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began taking it at once. I recommend it without hesitation."

Advertising a Public Sale

One Extra Buyer At a Sale Often Pays The Entire Expense of the Sale.

Get That Man.

You don't leave your rig in the middle of the road, go to a fence or post and read a public sale bill, do you?

Then, don't expect the other fellow to do it.

Put an advertisement in the Democrat-Forum, and then, regardless of blustery weather, the fellow you want to reach reads of your sale, while seated at his fireside, soaking in heat, and, having the soaking-in spirit, he soaks in your list of property offered for sale.

If he is a prospective buyer, you'll have him at your Public Sale; if not, you don't want him at your free lunch.

One extra bidder often pays the entire expense of the Public Sale, and it's a poor advertisement that won't pull that buyer.

The Democrat-Forum ads will reach a large per cent of the people in Nodaway County.

Sale Bills are a necessity, **but the Sale Ad in this newspaper is the thing that does the business.**

DAILY DEMOCRAT-FORUM

Hear Ye! Hear Ye!

NEWS used to be exceedingly scarce. The town crier would stand in the public square noisily clanging his bell to attract attention. When the crowd of eager citizens had assembled he would read the latest proclamation or give a brief summary of the news.

Today in your easy chair you glance over the newspaper and in a few minutes completely inform yourself on the news of the day. Not only do you know what is transpiring in the world of events, but you are up on the news of the busy market places where the best of everything can be bought.

The advertisments are by no means the least important news in the paper. They are an accurate index of what other people are buying, selling, wearing, eating, doing, learning; of what the world is accomplishing and how, where and by whom it is being accomplished.

They give you the opportunity for comparison and selection of almost everything you want or need. They bring the wares of the world to your door.

FORM THE HABIT OF READING THE ADVERTISEMENTS AS REGULARLY AS YOU READ THE FRONT PAGE.

COLLEGE TEACHER WRITES ON INCOMES

COMMERCE HEAD TELLS OF TAX INTRICACIES

IS 1921 REVENUE ACT

Ray J. Worley Explains Various Features—Returns Due March 15

Many people are beginning to scratch their heads and beginning to figure in anticipation of income tax due March 15. Ray J. Worley, head of commerce department of the College has writen an article explaining the provisions of the law. The following is the first installment of the article; which will be continued tomorrow:

Some of the commoner features of the Revenue Act of 1921, applying to individuals.

The Revenue Act of 1921 is a new and complete Tax law and repeals the Revenue Act of 1918 which has been in force for the years 1918, 1919 and 1920.

The Act comprises Income Taxes and Surtaxes upon individuals; War Profits and Excess Profit Taxes for the year 1921 upon corporations; a special tax on telegraph and telephone messages, beverages, cigars, tobaccos, admissions and dues; excise or sales taxes on certain articles such as automobiles, tires, camera, candy and other luxuries, capital stock tax on corporations, stamp tax and tax on employment of child labor.

It is the chief source of the Government Revenue.

The Act itself is of necessity voluminous and it is further amplified during its effect by Decisions of the United States Supreme Court and other Federal Courts, decisions of the Treasury Department and rulings of the Commissioner of Revenue at Washington, D. C.

By its very nature, any form of income of Profit taxation is complicated Congress has done much, however, to clarify many of the problems which arose out of the previous Revenue laws which have existed since the year 1909. The war profit and excess profit taxes, which were in effect during the years 1917 to 1920 inclusive, under the 1917 and 1918 laws, and are in somewhat similar form re-enacted for the year 1921 under the 1921 Act, were particularly complicated on account of the features pertaining to invested capital.

Commencing with the year 1922, these war profit and excess profit taxes are substituted by a corporation income tax at the rate of 12 1-2 per cent of the net profits, which will be much simpler of determination.

The purpose of this article is to refer to some of the commoner features of the income tax as it applies to individuals.

Individuals Subject to Tax

Every individual having a net income for the taxable year of $1,000 or over, if single, or if married and not living with husband or wife; every individual having a net income for the taxable year of $2,000 or over, if married and living with husband or wife; and every individual having a gross income for the taxable year of $5,000 or over, regardless of the amount of his net income, must make a return and file it with the Collector of Internal Revenue for the district in which they reside.

If a husband and wife have an aggregate net income for the taxable year of $2,000 or over, or an aggregate gross income of $5,000 or over, each shall make such a return; or, the income of each shall be included in a single joint return, in which case the tax shall be computed on the aggregate income.

These returns for the calendar year ending December 31, 1921, must be made under oath before the 15th day of March, 1923. Blank forms may be had upon application to the Collector of Internal Revenue. For those whose net income was more than $5,000 the form is 1040 and for net income of less than $5,000 the form is 1040-A.

Normal Tax and Surtax

The income tax upon individuals consists of the normal tax of 8 per cent of the amount of the net income in excess of certain credits referred to later, except that the rate upon the first $4,000 is 4 per cent and the surtax for the year 1921 which commences when the net income exceeds $5,000 and is at the rate of 1 per cent additional up to $6,000; 2 per cent from $6,000 to $8,000; 3 per cent from $8,000 to $10,000, and so on until the maximum surtax is reached, at the rate of 65 per cent when the net income exceeds $1,000,000. For the year 1922 and thereafter the surtax commences when the net income exceeds $6,000, and is at the rate of 1 per cent up to $10,000, 2 per cent from $10,000 to $12,000 and so on until the maximum is reached for incomes over $200,000 when the surtax rate is 50 per cent.

College Sextet Wins From Y. W. C. A. Team

Consistant Training Enables Miss Mac Leod's Team to Pile up 47 7 Score

The girls' basketball team of the State Teachers' college won an interesting contest from the St. Joseph Y. W. C. A. sextet Saturday night on the association court, 47 to 7. The college girls showed the result of consistent training and regular practice and had little difficulty in piling up a large score. Maryville's pair of forwards, Gartin and Raines, were especially good, the former making eleven field and four goals and the latter made ten baskets from the floor and one from the foul line.

The Y. W. C. A. team has plenty of good material and with a little more practice it will show much improvement. Esther Ross made all the points for the St. Joseph team, scoring once from the floor and the other times from the free throw line.

The Y. W. C. A. and the Teachers' college teams will meet next Saturday night in a return game at Maryville.

Both College Teams to Play This Week

Boys To Tarkio Friday Night And Girls Play The St. Joseph Y. W. C. A. Saturday.

The State Teachers College basketball teams will play two games this week. The boys team will go to Tarkio Friday and the girls will play the St. Joseph Y. W. C. A. at the Maryville high school gymnasium Saturday night.

The game with Tarkio is arousing a great deal of interest. These two school rivals for years, have not met this season. The edge, if any is with Maryville and the fans are looking forward, with interest to taking the Tarkio team into camp in revenge for the two defeats which were administered to the Bearcats by the Tarks last winter.

It is expected that a large number of rooters will accompany the team to Tarkio.

A return game will be played between these two teams at Maryville on Thursday, March 1.

At the College girls game Saturday night an interesting curtain raiser has been planned. It will be in the form of an indoor baseball game between the College Razzers and the professional men of Maryville. The razzers will be captained by William Mapel and Dr. Jessie Miller,Jr., will head the professional.

High School Musicans and Basketeers Famous

Supt. Ziegler Hears Much of Both at State Meeting—Last Chautauqua Number Today

Maryville high school is becoming famous throughout the state of Missouri, for her orchestra, and basketball team. This information was presented to the high school students by Supt. L. E. Nurse's Companion Quizzed by Sisters

"We Just Went to Sleep," McMahon Replies; Four Theories Jut Forward.

Shenandoah, Iowa, Feb. 19.—Poison liquor, an overdose of medicine, poison or heart, failure brought on by influenza and cold—one of those caused the death of Miss Kathryn Lukashavae, pretty Shenandoah nurse, formerly of St. Joseph, Mo. The verdict of the coroner's jury will await the report from chemists at Iowa City following an analysis of the contents of the stomach.

Relatives of the nurse claimed the body Saturday and it was shipped that night for Effingham, Kas., where the funeral will be held.

Charles McMahon, 24 years old, met the questions of the dead girl's two sisters at the county jail in Clarinda by saying "we just went to sleep."

No Booze Party, Claim.

"Who killed our sister? How did she die?" Many more questions they asked, but could elict no further information.

"Only one thing we know," said Miss Marie Lukashavae Saturday, "and that is that it was not a booze part, because Kathryn did not drink."

This statement was confirmed by McMahon, but the authorities declare that he has told two stories. In one he said that she and he drank whisky together, they say; in the other he denied that he had anything to drink.

In an interview with a reporter McMahon told the following story:

"Miss Lukashavae had been ill for three days with influenza. She called me up that evening and told me that she thought an auto ride would do her good. She said she had some shopping to do before starting, and is was about 8:30 when we began drving. About an hour later, on our way back to the hospital we drew to one side of the road and she said: 'Let us sit here a minute.'

Called Coroner Instead.

"The last I remember was asking her if she was cold. She said 'no' and I tucked the robe about her. When I awoke it must have been 12 or 1 o'clock. My right arm, against which Miss Lukashavae was resting was frozen. It must have taken me two hours to release it. I couldn't start the care and so I set out for a farmhouse. It seemed hours before I got there—I crawled part of the way. I asked them to call a doctor, but they summoned a coroner instead.

McMahon showed signs of nervousness during this interview. "I would like to know what made us fall asleep," he said. He first met the girl during the Christmas holidays, he said.

McMahon has been examined by a physician at the investigation of George Anderson, county attorney, and it was found that his ears, one hand and a place about three inches in diameter on his hip were frozen.

"There is nothing so far to show that McMahon is guilty," Anderson said Saturday, "as there are no marks of violence upon the girl's body. McMahon is just being held for investigation."

Four Reasons Why You Should Buy Your Ford Car This Month

I.—The unprecedented demand for Ford Cars throughout the winter months has taken the entire output of the Ford plants working at capacity, indicating that the demand this Spring will be far in excess of the number of Ford Cars that can possibly be built.

II.—January was the tenth consecutive month in which retail deliveries exceed 100,000 Ford Cars and Trucks. Requirements for February, the month when preparations are already under way for Spring business, called for 148,407 Cars and Trucks—more than 24,000 in excess of the number we can possibly produce.

III.—Ford dealers in many parts of the country are already finding it necessary to specify future delivery dates on Ford Products because there are no reserve stocks to draw from.

IV.—Your order placed now will protect you against delay or disappointment later on—It is the only way you can be assured of reasonably prompt delivery.

We consider it important to give you these facts, so that if you are planning to purchase a Ford Car, Truck or Fordson Tractor for use this Spring or Summer you can list your order at once and take advantage of our dealer's first opportunity to make delivery.
